

C. RAGHAVENDRA

AI & SOFTWARE DEVELOPER

8121280857 | raghavendrac2006@gmail.com | Kuppam, Andhra Pradesh
[linkedin.com/in/raghavendrac-raghu](https://www.linkedin.com/in/raghavendrac-raghu) | github.com/raghavendrac2006

PROFESSIONAL SUMMARY

Aspiring AI and Software Developer pursuing B.Tech in Computer Science and Engineering (AI & ML) with experience building real-world mobile applications, AI-powered automation systems, and cloud-based solutions. Developed and deployed software used by active businesses and built intelligent automation systems leveraging Flutter, Firebase, Python, and Gemini AI. Passionate about software engineering, AI-driven development, and solving practical business problems through technology.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, Dart, JavaScript, SQL
Mobile Development: Flutter, Firebase, Supabase
Web Development: HTML, CSS, React
Core Concepts: OOP, DBMS, SQL, Data Structures
Tools & Technologies: Git, GitHub, Oracle Cloud, REST APIs, Gemini AI, ChatGPT, Claude, Cursor, GitHub Copilot

PROJECTS

Vision Guardian – AI Meeting Monitoring Agent

- Developed an AI-powered meeting monitoring system using Python and Selenium capable of processing live meeting captions.
- Implemented keyword detection, Telegram notifications, and automated PDF summary generation using Gemini AI.
- Designed cloud-based automation workflows leveraging browser automation and transcript analysis.

Technologies: Python, Selenium, Gemini AI, Telegram Bot API, Oracle Cloud

Ledger Flow – Business Management & Delivery Tracking System

- Developed and deployed a Flutter-Firebase application that digitizes paperwork, delivery records, and operational workflows.
- Integrated Gemini AI-powered features to improve business operations.
- Currently supports active business operations for two businesses.

Technologies: Flutter, Firebase, Gemini API

Smart Bus Tracking System

- Developing a GPS-based bus tracking application for students and institutions.
- Supports live tracking, arrival alerts, and delay notifications using OpenStreetMap and Firebase.

Technologies: Flutter, Firebase, OpenStreetMap, GPS Tracking

INTERNSHIP EXPERIENCE

Deloitte Cyber Security Virtual Internship | Forge

June 2025 – July 2025

- Performed vulnerability analysis, threat detection, and incident response exercises in simulated environments.
- Gained exposure to modern cyber security workflows and risk assessment techniques.

EDUCATION

B.Tech CSE (AI & ML), Kuppam Engineering College (JNTUA) | CGPA: 7.76 | 2023–2027

Intermediate, IRM Junior College | 83% | 2021–2023

SSC, Taylor High School | 88% | 2021

CERTIFICATIONS & ACHIEVEMENTS

- NPTEL – Social Network Analysis (2025)
- Deloitte Cyber Security Virtual Internship Certificate (2025)
- Second Prize – Ideathon, Sacred Heart Engineering College
- Developed and deployed a business management application used by active businesses

DECLARATION

I hereby declare that the information provided above is true and accurate to the best of my knowledge.
